

MADUSHANI GUNASEKARA

FULL STACK DEVELOPER

ABOUT ME

I'm a positive person , problem solver & full stack web developer with knowledge of different languages and like to explore other technologies and frameworks that catch my interest. I like to work both alone and as part of a team on often time-sensitive, challenging web development projects that require outstanding creative and technical capabilities

Ferguson High School Rathnapura

G.C.E Advanced Level Examination - 2018
Chemistry : B Physics : C Combined Maths : C z-score: 1.0989

PROJECTS

Zestify Recipe Web Application With Dashboard

Using this can discover, create, and share culinary delights on our food enthusiast platform. Join a vibrant community where you can explore cherished recipes and captivating blogs. Unlock taste, culture, and creativity with our Pro subscription

Technologies: React Js, Redux Toolkit, MongoDB, Node, Express, MaterialUI

Admin Dashboard

A Generic CRUD API facilitates seamless data management. Admin/User API, JWT authentication, and a visually appealing UI dashboard enhance user experience.

Technologies: React Js, Redux Toolkit, MongoDB, Node, Express

Gym Web App

This website is the latest project that I've developed for a gym. It provides all the needed features for their customer

Technologies: React Js, styled-components, react-router, emails, firebase UI design - Adobe XD

Sri Eventz Web App

sri-eventz site was made for the HackX2021 hackathon Finals. It is a event planning platform which dedicated to making any event you can imagine a reality. Social and wedding planners can also give it a more social look & helps to keep events in one location

Technologies: React Js, styled-components, NodeJs, express, firebase UI design - Adobe XD

Detetion and Classification of Diabetic Retinophathy

This is my final year project. In here Identified a CNN model with the highest accuracies in feature extraction and in a five severity level based classification.

Technologies: Python, Google colab, tensorflow
